Roger Sabater

Ermax team

Passionate about motorcycles and mechanics, Roger Sabater created Ermax in Marseille, 38 years ago.

At the beginning, it was just a little shop where accessories such as fairings, nose fairings, exhaust systems and personalized paintings were assembled.

The difficulty to find quality suppliers who actually respected the deadlines triggered, despite the lack of funding, the research and elaboration of an oven to receive the raw material, a thermoforming press for Plexiglass or ABS, and a painting cabine - the aim being to become autonomous and propose a full service to clients.

Polyester pieces, which were less well finished, complicated to paint, too long to manufacture were dropped. A new brand was born, and their accessories (ranging from screens to painted parts) delight fans from France and all over the world.

Ermax's design and innovation have, over the years, changed the appearance of motorcycles, and more recently, scooters.

Racing is also a big part of Ermax's soul, many times world champion in all categories. The best teams, in endurance (such as the GMT 94 who won in 2014) as well as in Grand Prix (such as Monster Yamaha Tech3 MotoGP, Derendinger Racing Moto2, CIP Moto3) made no mistake by choosing and remaining faithful to Ermax.
